Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 8, 2007 has been entered.

Drawings

2. The drawings were received on January 18, 2007. These drawings are approved.

Allowable Subject Matter

3. Claims 1-14 are allowed.

4. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having the actuating device including push means for exerting an axial thrust on the first pulley half through a force generating path not including the second pulley half when an angular speed value of the input shaft is greater than a first threshold value, and the speed regulating device being active only when the angular speed value of the input shaft is above a second threshold value; re claim 14, a centrifugal actuating device controlling the clutch means; the actuating device including a first set of weights engaging a push means for exerting an axial thrust through the push means on the first half-pulley when an angular speed value of the input shaft is greater than a first threshold value so as to connect the drive
